

HeyMath!

Because every student counts

Developed with advice from

University of Cambridge

"HeyMath's mission is to be the Math Google - to establish a Web-based platform that enables every student and teacher to learn from the "best teacher in the world" for every Math concept and to also be able to benchmark themselves against their peers globally."

Thomas L. Friedman

Pulitzer Prize winner, and Author of the Bestseller "The World is Flat"

Supporting the work of teachers since 2000
Used by 500,000 students and 4,000 teachers worldwide

Digital curriculum for Grades 1 to 10

A range of pedagogically rich animated lessons, interactive tools, Maths Lab activities, games and stories aligned to CBSE, ICSE and IGCSE.

Teacher professional development

Access to subject matter experts for immersive workshops on lesson planning, global best practices in Math education, creating inclusive classrooms, intervention for remediation and developing 21st century competencies in students.

Adaptive learning solutions

Powered by smart algorithms that generate more than 100000 questions covering all topics in the syllabus. The assessment platform enables personalised learning and mastery with rich analytics.

Student activities

Fun Math trails, enrichment workshops, inter-disciplinary projects and summer internships for exposure beyond the curriculum.

Online accounts for All

Fosters self-directed learning in students, builds a solid conceptual foundation, and is ideal for test prep.

Helps teachers constantly upgrade content knowledge, is useful for lesson planning and designing of CCE tasks.
